Andrew,

Thank you for your excellent leadership and facilitation, in conjunction with Aaron Speedy, for our staff retreat on September 23rd, 2005. The day has been highlight of our school year thus far and I attribute much of the success of the retreat to your expertise. The activities that you chose greatly assisted new teachers getting to better know staff members in their department as well as experienced department members getting to know their colleagues even better.

I would also like to thank Aaron and yourself for the reinforcement of the goal setting foci that I discussed as part of the departmental planning session in the morning. It was exciting to see staff make connections between their students, their practices and some of the goals that they had just considered as a department. It is these type of reflective activities that will assist us all in education towards moving forward and providing success for all students.

On behalf of the staff at CHSS, thank you once again for all of your efforts and leadership in making our staff retreat such a success. Please forward our thanks and appreciation to Aaron as well.

Sincerely,

Grant Montgomery
